

## Breast Wear Sizing

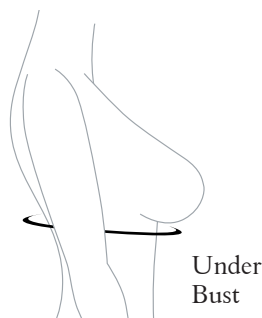

Design Veronique® bra sizes do not conform to industry standard bra sizing.

If you are having a breast augmentation, reduction, or reconstruction, your exact cup size will not be determined until after the procedure.

**Under Bust Measurement:** Before surgery, measure around the chest, directly beneath the breasts using the diagram above as a guide. This is your under bust measurement. Select the size from the size chart that matches your under bust measurement.

Size	Under Bust
<b>XS</b>	25" - 26"
<b>S</b>	27" - 30"
<b>M</b>	31" - 34"
<b>L</b>	35" - 38"
<b>XL</b>	39" - 42"
<b>XXL</b>	43" - 46"
<b>3X</b>	47" - 49"

**Sizing Example:** An under bust measurement of 31" is a size M.

**Cup Size:** Design Veronique® bras are uniquely designed to fit your breast size after surgery, no cup size measurement is required. All Design Veronique bras are based on your under bust measurement.
